

IMPORTANT

Aligned Modern Health Financial Collection Policy

We will keep a **credit card on file** in order to simplify the payment process for your visit. This will ensure that you are being charged the correct amount for each visit.

We **will not collect anything subject to your deductible at the time of your appointment.** We will only collect your co-pay at each visit and any items not covered by insurance (if applicable). **After your insurance company processes claims for these visits,** you will receive a series of statements over the course of your treatment from our Patient Advocate team for the balance due from your visits.

Once insurance processes your visit, **we'll email you a statement** detailing the remaining costs. **We'll automatically charge your credit card 3 days after your statement has been sent,** unless you let us know otherwise.

If you have any questions regarding the Aligned Modern Health Payment Policy, our Patient Advocate Team is ready and willing to help!
